QUALIFICATION

FINALS

Note: For each athlete to be tested, two sets of samples will be taken. Separate envelopes with labels will be used. Two (2) cartridges will be placed in one sealed envelope and four (4) cartridges will be placed in the other sealed envelope. Each envelope with two (2) cartridges must be checked.

If one **OR** both cartridges are overweight (above 24,5 g), then the four (4) cartridges in the second envelope must be tested. If the **AVERAGE** of the six (6) cartridges in total is also overweighted, the athlete must be disqualified.

If the ammunition fails the test, disqualification must be imposed in accordance with ISSF Rule 9.4.3.1 a) / 9.4.3.2 d). An illegal overweight cartridge is one that contains more than 24.5 g of shot, as per ISSF Rules. If the **AVERAGE** of the six (6) cartridges in total is also overweighted, the athlete must be disqualified. A coach or team official must be notified and invited to witness the testing, when this envelope will be opened.

Pellet diameter device: If pellets do not go through the filter, those must be measured with a caliper or Micrometer.
