- ISSF ID Number is unique, and, once used during an ISSF Championship, will never be changed
- To date, there are 29'591 athletes from 163 Member Federations registered
- ISSF Athlete Database includes all relevant data connected to an athlete:

The ISSF ID is the linked for all data

The screenshot shows the ISSF Athletes database homepage. At the top, there is a banner for 'A NEW START' with social media links for Instagram and Twitter (@issf_official). Below this, the ISSF logo is prominently displayed. The main content area is divided into several sections:

- ISSF ATHLETES:** Features an 'Athletes database' with a search bar and a '4 results (0:08 seconds)' indicator.
- ATHLETES NEWS:** Contains three news items, each with the ISSF logo and a brief headline:
 - 'Publication of the 2024 list of prohibited substances' dated 05.10.2023 by ISSF.
 - 'Reminders about the risks associated with supplement use' dated 14.06.2023 by ISSF.
 - '2022 Year End Report' dated 21.02.2023 by ISSF.

This screenshot shows the search results page for the ISSF Athletes database. The search term 'gf' has yielded 13 results (0:07 seconds). The results are listed in a table format:

1. ISSF ATHLETE ID NUMBER AND ATHLETE DATABASE

- A Federation must make sure to apply on time for an ISSF ID Number.
- An Application form(available on our Website), sign and stamped by the Federation and athlete must be issued to ISSF.
- A Copy of the passport must be issued to ISSF.
- We issue the ID number in a time frame of 1-3 days; in case of an urgent case we can prepare that in 1 hour.
- In case if you wish a change from an existing number, (status, example of a name change (married, etc.) please have in mind from the moment when an athlete is registered in the entry system or a competition already starts, we will not change anything ,otherwise the system will not recognize the ID, results ,biographies etc., and the outcome is that no Data will be shown on the website, then only can be done after and the end of a competition.
- 50 Euro is the fee and Express 100€

Important for us in order that we can provide that correctly

- In preparation of each ISSF Championship, the standardized Information Material and Registration Forms are provided by the ISSF.
- ISSF HQ coordinates the completion and approval process of all necessary documents.
- To be ready as soon as possible with the documents for the 2024 Championships, we will discuss all open issues during these 2 days.
- One of the most important issues in the preparation process is the Competition Schedule. It must fulfill next to the needs of the Organizing Committee also the requirements for TV and Media coverage. And of course, it must follow the Rules.
- There will be a separate presentation on Championship Scheduling later during this workshop.
- ISSF is preparing the Competition Schedule, and that should be followed as a standard for all events.

- Of course, you can propose some adjustments, as sometimes is necessary of different weather and light conditions.
- Or amount of Competition days.
- In general, you should follow the sample as close as possible this is very important for all Federations, to plan trips and fly ticket bookings.
- Is very important and have that in mind federations booking flights accordingly in advance, so it means if you move something that will create big problems as we have seen several times.
- The Preliminary Programme should be submitted 8 months prior to the Championship, but we all know that is almost not possible.
- The Final Programme should be submitted 6 months prior to the Championship.
- The General Information letter prepared by the Organizing Committee should be distributed among the Member Federations 5 months prior to the Championship.

3. OFFICIAL PROGRAMS AND SCHEDULE SUPPORT

Each national federation entering the Championship must submit a preliminary entry to the Organizing Committee. The preliminary entry must list all individual, Mixed Team and Team events in which the national federation will participate. Preliminary entries must be received by the Organizing Committee at least thirty (30) days before the official arrival day. Any Preliminary entry sent after this date will be entered on a waiting list according to the date of the receipt of the entry and it may be that the participation is only possible if targets/places are available. The Organizing Committee must inform the Nations in question of any such change immediately after these entries are received.

- Final Entries must be entered in the ISSF on-line registration system forwarded directly to the ISSF by fax or e-mail before midnight (Munich time) of the 30th day before the official arrival day. The final entries to the ISSF may be made via the ISSF online registration. The final entry must list the names and ID Numbers of all athletes. The final entry must list the names and dates of birth of all officials with their function. All Final entries must be completed at least three (3) days before the official arrival day.

3. OFFICIAL PROGRAMS AND SCHEDULE SUPPORT

Any additional entries received after the deadline of three (3) days before the official arrival day may be rejected by the Organizing Committee.

Replacement of a registered athlete by another already registered athlete for that Championship is permitted. This change can only be made before 12:00 pm (noon) on the day before the Pre-Event Training for that event.

3. OFFICIAL PROGRAMS AND SCHEDULE SUPPORT

- The static nature of Rifle & Pistol disciplines makes it hard to relate to the athlete's action and performance during the match
- TV graphics are key to making the shooting sport understandable
- Wireless sensors attached to the rifle or pistol can record movement
- This can be visualized as the aiming trajectory in TV graphics to make our sport more immersive

- To guarantee a smooth result and scoring service, results provider is on-site for all international ISSF and WSPS competitions and controls and maintains each range with a results provider competition technician
- The goal is to reduce the number of required results provider technicians and local **trained and licensed** technicians can take over part of the duties
- This will reduce costs and spread the knowledge to a wider basement
