REALITY DURING COMPETITIONS OFTEN HITS US LIKE A HAMMER AT THE END OF THE LAST SERIES. WHEN THE MATCH IS OVER, ONE HEARS ENDLESS EXCUSES AND EXPLANATIONS REGARDING THE RESULT. SOME TECHNIQUES ARE REAL, OTHERS ESOTERIC AND MARY CABALISTIC.

There are shooters who obtain amazing scores during training. It would seem that they have trained with enough technique, technique, technique. But when it comes to the big stage of the competition, they suddenly lose the magical technique that they had during the training. This is a common experience among many shooters. They may achieve impressive scores during training, but when it comes to the actual competition, their performance drops dramatically. This can be frustrating for both the shooters and those who support them, such as coaches and spectators. It highlights the importance of maintaining focus and discipline during competitions to ensure consistent performance.
