Contest

I. Regulations
II. Sport Equipments
III. Quota Places for Olympic Games in Tokyo 2020
IV. Support of Continental Confederation
V. ISSF President Cup 2021
VI. Reports from the National Federations
1. Support for ISSF Member Federations from those nations, where the shooting sport is not developed enough or certain disciplines of the shooting sport lack development.

1.1. Purpose
The grant of support to ISSF Member Federations to better develop the shooting sport at their national level in order to increase the number of practising athletes and thereby promote the development of the shooting sport worldwide.

1.2. Potential beneficiaries
ISSF Member Federations wishing to benefit from the Development Fund must correspond to the following prerequisites:
• To have development programs for shooting sport supported by the governmental authorities or their NOC;
• To demonstrate activity on national level and regularly organize national shooting sport competitions;
• To have existing shooting facilities or facilities under construction according to the national development programs.

1.3. Specification of support
1.3.1. The support of the Member Federations may range from equipment (targets, scoring systems, ammunition, etc.) for shooting facilities to services (education programs) provided by the ISSF. Subsidies in form of cash payments are excluded.
1.3.2. The support shall not be granted before the shooting facility to be equipped is completed and ready for use.
1.3.3. Further details are provided in the Support Agreement, which shall be concluded at the end of the application procedure between the ISSF and the respective Member Federation.
1.3.4. Education programs to be realized together with the Continental Confederations. All study materials will be available at the ISSF website. The practical part must be conducted at shooting venues.

1.4. Application Procedure
1.4.1. The applying Member Federation must send a signed Application to the ISSF Secretariat (ISSF headquarters) and provide information about the development of shooting sport in its territory. Such information shall in particular include:
• A detailed presentation of existing shooting facilities including information on its equipment;
• Information on the number of athletes, coaches and judges engaged in the shooting sport under the supervision of the Member Federation;
• Information on shooting sport competitions organised by the Member Federation and/or in which its athletes participated in the past five years.
1.4.2. The Application shall contain the Development Plan, the detailed information about the proposed project(s) and, if the project presumes the construction of the shooting facility/facilities, in particular, including:
• Information on the involvement of the government and/or the NOC;
• Project schedule;
• Budget;
• Location, size and owner of the premises;
• Type(s) of shooting sport to be practised;
• Planned completion date.

1.4.3. The documents submitted shall be evaluated by the ISSF Development Commission, which shall forward the Application with its recommendations to the BoT. The BoT has full discretion whether it supports the requested or any other support for the applicant.

1.4.4. The BoT shall be the final body approving each application and determining the details of the support granted to the Member Federation.

1.4.5. The Application Procedure closes with the conclusion of the Support Agreement between the Member Federation and the ISSF.

1.5. Monitoring and reporting

1.5.1. The Member Federation shall provide the BoT with periodic reports of the use of the granted support as set out in the Support Agreement. In addition, the BoT may, at any time, request information about such use in order to observe and ensure that it is in line with these Programme Rules and the Support Agreement.

1.5.2. The Member Federation shall present a final report to the BoT once the project has been fully completed.

2. Support to ISSF Member Federations with respect to quota places for the Tokyo 2020 Olympic Games

2.1. Purpose
The ISSF highly appreciates the work and the investment of the Member Federation in the development of their athletes. The ISSF is mindful of the Member Federations’ lack funds for administrative costs such as modernisation of office equipment or for implementation of digitalization (website, apps, etc.). The ISSF Development Fund shall contribute to cover such costs and thereby supporting the Member Federations’ efforts to be ready for the future. By linking the grant of support to the number of quota places gained by a Member Federation for the Olympic Games, the ISSF intends to reward the investment by the Member Federations in the training of their athletes.

2.2. Specification of support
2.2.1. Member Federations may request support for each quota place obtained by one of its athletes indicating the intended use of the support in line with the Purpose stipulate under 2.1 above.

2.2.2. The exact amount that will be granted to the Member Federations for every quota place at the Olympic Games shall be determined by the BoT.

2.2.3. The intended use of the support will be established in the Support Agreement agreed between the ISSF and the respective Member Federation.

2.3. Monitoring and reporting
The BoT may, at any time, request information from the Member Federation about the use of the granted support in order to ensure that it is in line with these Programme Rules and the Support Agreement.

3. Support for the organization of the ISSF Final Tournament
The BoT shall set and control the conditions for the organizers of the ISSF Final Tournament, its support with means from the ISSF Development Fund and the selection mechanism of the participants upon proposal of the Executive Committee.

4. Support to the Continental Confederations

4.1. Purpose
In accordance with Article 21.5 ISSF Constitution the ISSF recognizes the following five Continental Confederations (‘‘CF’’):
The African Shooting Sport Federation (ASSF),
the Shooting Confederation of the Americans (CAT),
the Asian Shooting Confederation (ASC),
the European Shooting Confederation (ESC),
the Oceania Shooting Confederation (OSC).

The CF comprise of ISSF Member Federations on their respective continental level. The purpose of the CF is to maintain, to strengthen and to develop the sport of shooting in accordance with the Constitution and the Regulations of the ISSF and to strengthen the bonds of friendship and good relations among the Member Federations on their regional level. Thereby, the CF support one of the main purposes of the ISSF pursuant to Article 1.1.2 ISSF Constitution. The ISSF highly appreciates the efforts of the CF in support of promoting the shooting sport on international level. The ISSF Development Fund shall contribute to the further prospering of the CF’s work in the interest of the shooting sport, also for the benefit of the ISSF Member Federations.

4.2. Specification of support
4.2.1. Each CF shall receive a one-off payment in the amount of USD 3,000 per affiliated country or territory (according to 3.3 and 3.4 ISSF Constitution) to be mandatorily used for the promotion of the shooting sport, in particular for
- anti-doping promotion,
- education for coaches, judges and organizers,
- creating, updating or improving of websites and social media platforms,
- adjustment of the statutory documents according to the prerequisites of the ISSF Constitution,
- covering outstanding financial obligations of member federations of the CF towards the ISSF,
- constitutional meetings.
4.2.2. The exact amount to be granted to the respective CF according to the formula under 4.2.1 shall be determined by the BoT.
4.2.3. Prior to payment a Support Agreement shall be concluded between the ISSF and the respective CF.

4.3. Monitoring and reporting
The BoT may, at any time, request information from the CF about the use of the granted support in order to ensure that it is in line with these Programme Rules, in particular with article 4.2.1, and the Support Agreement.

5. Obligations of beneficiaries
The beneficiaries of the support granted on basis of these Programme Rules shall have the following obligations:
• acknowledge and observe at any time these Programme Rules;
• provide the BoT with all the necessary information and supporting documentary evidence related to the implementation and use of the support;
• secure the authorisation of the competent government authorities to import any equipment and materials and facilitate all the administrative steps involved;
• ensure that the shooting facility and its equipment is used in accordance with the ISSF Rules and Regulations once it is ready for use.
II. SPORT EQUIPMENT

1. Equipment:
   In 2020-2021 the ISSF Development Fund supported 39 National Federation with next equipments:

   a. Rifle model LG400 BLACKTEC

   ![Rifle model LG400 BLACKTEC](image)

   b. Pistol model HÄMMERLI AP20

   ![Pistol model HÄMMERLI AP20](image)

   c. (300 sets) of SIUS EST: SA951 with HS10 target for 10m.

   ![SIUS EST: SA951](image)

   d. SHOTGUN EQUIPMENT: Laporte & Promatic

   ![SHOTGUN EQUIPMENT: Laporte & Promatic](image)
2. Geography:

39 National Federations from 5 Continents:
- Africa – 7
- America – 14
- Asia – 4
- Oceania – 1
- Europe – 13

VI. Reports from the National Federations
Tirana 1.12.2021

REPORT
Albanian Shooting Sport Federation
FOR THE ISSF DEVELOPMENT FUND

Albanian Shooting Sport Federation is the national governing body of shooting sport in Albania and is responsible for the governance of the shooting sport and the development of athletes within the country. The Supported Federation has applied for the grant of support pursuant to Article 1 of the ISSF Development Fund Programme Rules described by our Federation in the Application dated 04.11.2019

Supporting Agreement is between the ISSF and the Albanian Shooting Sport Federation was signed 7th April 2020, with the purpose of providing support for the approved Project. According to the Agreement there were supplied following Equipment:

a. 10 SIUS electronic targets,
b. 10 Air Rifles Walther Match LG400
c. 10 Air Pistols Walther AP20

1. According to the transportation confirmation
   - 10 SIUS electronic targets,
   Arrival in Albania 27.06.2020

2. The other materials
   10 Air Rifles Walther Match LG400
   10 Air Pistols Walther AP20
   Arrival in Albania 28.11.2020
Obligations of Albanian Shooting Federation

According the Agreement Albanian Shooting Sport Federation is obliged to use the Support exclusively in line with the Project as approved by the Board and in accordance with the DF Rules and its constitutional purposes.
Albanian Shoting Sport Federation according to the decision of Executive Board dated 30 January 2021, decided way of using the received materials:

1. New Ream of Armed Forces take in use two rifles and two pistols
2. Flamurtari Club, take in use one pistol, one rifle
3. Elbasani Club take in use one pistol, one rifle
4. Tirana Club, take in use one pistol, one rifle
5. Studenti Club, take in use one pistol, one rifle
6. Teuta Club, take in use one pistol, and one rifle
7. In store 3 rifle and 3 pistol, to be delived the new team of State Police.

According to the above decision is prepared an agreement with clubs to deliver in use the above equipments.

- We have only one target installed at the Teuta shooting range.
- It is used only for training.
- The actual situation of the shooting range in Albania is not improved, so we have not possibility to deliver for installation full time the 10 SIUS electronic targets. Within this year will be concluded work for Tirana shooting range to be a closed area, and all targets will be installed there.

Please find in attach following documents:
1. Invoice from Walter and confirmation list
2. Invoice and delivery from SIUS
3. Model of report to give in use materials to club
4. Photo of materials after delivery
5. Photo of materials in use during competitions and training

With respect

Enkelejda Caushi
Secretary General

Por la presente nos dirigimos a usted a los fines de informar el destino dado al Material Deportivo donado y entregado por la International Shooting Sport Federation (ISSF), consistente en 10 Pistolas de Aire Walther y 10 Rifles de Aire Walther.

Dicho material está siendo utilizado para fomentar el desarrollo deportivo que se lleva a cabo a través de las Escuelas Deportivas Argentinas, que son apoyadas por la Secretaría de Deportes de la Nación y por las Direcciones Provinciales de Deporte. Estas Escuelas funcionan en ciudades alejadas de Buenos Aires, capital de la Argentina, en las cuales entrenan los atletas bajo la conducción y asesoramiento de entrenadores formados por un responsable del desarrollo de los jóvenes incluidos en la categoría YOG.

Acompañamos la información con un cuadro en el que se detallan los lugares en los que están ubicadas las Escuelas Deportivas Argentinas y la distancia entre la ciudad de Buenos Aires y el punto de radicación de las mismas.

TIRO DEPORTIVO: "Primer Deporte Olímpico Argentino"
03.12.2021

to the ISSF upon completion
of the project as determined by the ISSF

FINAL REPORT

Armenian Shooting Federation has received 10 pistols and 10 riffles. Equipment is used in Youth schools in Yerevan and in Gyumri, so most of shooters that are using the equipment just started their sport career.

Most of the guns are used for trainings, but also some of them are used for competitions.

Thank you for your support.

**2020 ISSF Development Fund**

In 2020 ISSF generously assisted us with the purchase of a complete set of Promatic O/T and Skeet machines for our first of range.

This is part of our development plan of having (2) O/T and skeet ranges here in Barbados, allowing Barbados to be able to offer the facilities for training and competitions to our local, regional, and international athletes.

The equipment arrived in Barbados November 2020 and Mr. Kevin Newton from Promatic came to Barbados and installed the equipment at our Barbados Clay Target Shooting Association grounds during December 2020.

The COVID 19 pandemic has restricted our competitions in 2021 but we have been able to allow our local athletes to train.

The included pictures were taken during the installation Dec. 2020.
As part of our ongoing development plan, we have purchased the adjacent land to the East of the proposed second OT and Skeet Range. This land was required to contain shot fall.
Promatic has kindly offered a loan package for the second set of machines, and these have been delivered and are on island. We are actively trying secure funding for these machines.

Depending on funding we are planning to start the building of the second O/T bunker in February 2022 after which Mr. Newton will return to complete the installation.

Once completed we hope that Barbados could be considered to host smaller ISSF sanctioned competitions as the extremely high travel cost to scheduled World Cups and qualifying competitions restrict our local and regional athletes the opportunity to compete and qualify.

We are looking forward to a very active shooting schedule in 2022 with several scheduled Coaching and training programs for our local/regional athletes and our juniors.

We have also been approached by several international teams to use our facilities as a training ground once the second range is completed. Exposure to this level of training would be very beneficial to our athletes

Again, I would like to thank ISSF for their assistance in 2020 and ask that you consider assisting us with the completion of second range.

I would like to take this opportunity to wish all a Merry Christmas and a prosperous New Year.

All the best,

GBrowne

Geoffrey B. Browne
Chairman
The Barbados Shooting Council
To Mr. Yahor Aleinik,
ISSF Event and Development Fund Manager

Minsk, 18 January, 2022

FINAL REPORT TO THE ISSF DEVELOPMENT FUND

Dear Mr. Aleinik,

Prior to the application to the ISSF Development fund, an agreement was made between BSSF and ISSF the equipment (10 SIUS Electronic Scoring Targets: SA951 with HS10 target for 10m from SIUS AG company) would be installed in 2 Sport Shooting School:

- 1 SET of 5 SIUS targets will be installed in Minsk Sport Shooting School;
- 1 SET of 5 SIUS targets will be installed in Vitebsk Olympic Reserve School.

This equipment will be heavily involved in the development of the national shooting sport in Belarus.

The BSSF would like to thank ISSF President Vladimir Lisin, Secretary General Alexander Ratner and Event and Development Fund Manager Yahor Aleinik for great support for Belarusian shooting sport.

With best regards,

Yuri Arkhipenko

The BSSF Secretary

Bogotá D.C., enero 14 de 2022

Señor
CARLOS SILVA
Presidente
CONFEDERACIÓN AMERICANA DE TIRO

Cordial saludo.

Atendiendo su solicitud, remito informe de los elementos donados por la ISSF a la Federación Colombiana de Tiro:

**10 BLANCOS ELECTRONICOS SIUS SH10**

¿En dónde está siendo utilizado el equipo recibido?

En el Polígono Nacional de la Federación Colombiana de Tiro

¿Quiénes lo están utilizando?

Deportistas afiliados a la Federación Colombiana de Tiro

Cómo se está utilizando: Los blancos se usan en competencias oficiales de la Federación, en entrenamientos de las diferentes ligas afiliadas a la Federación, en concentraciones de la selección nacional juvenil y mayores y en programas de promoción y desarrollo.

**10 PISTOLAS DE AIRE COMPRIMIDO**

10 pistolas de aire comprimido están en proceso de legalización de aduanas, solo hace falta que el Comité Olímpico Colombiano haga los pagos de aduanas para poder recibir el material.
10 RIFLES DE AIRE COMPRIMIDO

10 rifles de aire comprimido, estos fueron confiscados por la autoridad aduanera de Colombia por inconsistencia en los documentos con los que fueron enviados. Estamos trabajando para recuperarlos, pero no hemos podido tener avances.

Estaremos atentos a resolver cualquier duda.

Atentamente,

CAROLINA GOMEZ FONSECA
Gerente
FEDERACIÓN DE TIRO COSTA RICA

Señor

YAHOR ALEINIK
Event and Development Fund Manager
International Shooting Sport Federation

Buenos días, presentamos el informe de los rifles y pistolas de aire suministrados como donación por parte de la Federación Internacional de Tiro Deportivo.

1. ¿Dónde está el equipo instalado, como se usa y quien lo usa?

Las armas en estos momentos se utilizan para promover el deporte y para que sean utilizadas por personas que inician y verdaderamente muestran un interés marcado para practicar el tiro deportivo con armas de aire.

En cuanto a los rifles, 2 están siendo utilizados por jóvenes tiradores que se están iniciando en la práctica de nuestro deporte, los otros 3 rifles la Federación los utiliza para que sean manipulados por aquellas personas que se interesan por conocer como es nuestro deporte.

En cuanto a las pistolas 3 están en manos de asociados que ya practican nuestro deporte, inclusive una tiradora con discapacidad la utilizó en la Copa del Mundo realizada en Perú este año. Las otras dos pistolas igualmente que los rifles se ceden para que sean manipulados por aquellas personas que se interesan por primera vez por conocer como es nuestro deporte.

Cualquier información extra, con gusto será atendida.

Final report to the ISSF upon completion of the project as determined by the ISSF

Estonian Shooting Sport Federation received 10 Sets of SIUS Electronic Scoring Targets: SA951 with HS10 target for 10m from ISSF Development Fond. At the moment, the equipment is located in Männiku Shooting Range, the largest shooting range in Estonia, where the best Estonian’s shooters train. The Estonian Shooting Sport Federation has used the equipment at the Estonian Junior Championships in November 2021, the equipment will also be used at the Estonian Cup on December 2021 and the Estonian Championships in February 2022.

Estonian Shooting Sport Federation thanks the ISSF for its support, which is very necessary and important in the development of shooting sports.

Best regards,

Meelis Loit
Secretary General
In 2019, the National Shooting Federation of Guatemala developed a project, based on three phases and presented to the ISSF Development Fund, in which the requirement of electronic targets was made for the decentralization of sports shooting at the national level with electronic monitoring systems. measurement, a second phase in which sports equipment was requested for the development of the shooting, it would be distributed based on the level of sports development and enrollment that the now nine departmental sports associations have at the national level; As a third phase, it was requested to take Guatemala into account as a training center for Latin America, taking advantage of the country's accessibility, infrastructure and natural beauty.

As a result of the elaboration of this project, the Federation received the following as a donation from the ISSF Development Fund:

- 5 Sius HSL 10 Hibrid electronic targets
- 10 Air Rifles Walther Match LG400
- 10 Air Pistols Walther AP22

**DISTRIBUTION OF THE DONATION RECEIVED FOR SPORTS DEVELOPMENT**

**RIFLES AND PISTOLS**

The Rifles and Pistols received were distributed fairly among the associations that have had a greater development and work, making a balance to not stop supplying the associations that have weapons needs.

ELECTRONIC TARGETS

The Sius electronic targets were recently received, they will be sent to the association that obtains the best grade in the internal evaluation that we do in the federation, helping to decentralize the sport shooting towards the interior of the country.

REGIONAL TRAINING CENTER

We are waiting for them to give us the honor of being hosts of international trainings and courses, which we would be happy to host and take advantage of with our trainers and or judges the professionalization.

We are very grateful for the enormous support received from the ISSF Fund and rest assured that the resources invested in Guatemala will be of great benefit to the sport and will soon be reflected in the medal tables of the main international competitions in which Guatemalan shooting have participation.

Best Regards,

Wendy Yannette Marruquín Barú
President
National Sport Shooting Federation of Guatemala
Progress Report

ISSF Development Fund Program
Support Project

Federación Nacional de Tiro de Honduras

November 2021

San Pedro Sula, Honduras
I. Background:

In 2019, the Honduran Shooting Sport Federation (Federación Nacional de Tiro de Honduras), has applied for a grant of support from the ISSF Development Fund Programme, in response, in 2020 the ISSF Development Fund Programme, according to its rules, has granted support to the Honduran Shooting Sport Federation, for which the corresponding agreements were formalized.

The granted support consists of the following:
- 10 sets of SIUS Electronic Target Systems 10-meter lane HS10 Complete
- 5 Air Rifles (Walther Match LG400)
- 5 Air Pistols (Walther AP200)

This Report is presented by the Honduran Shooting Sport Federation in compliance with the rules and conditions set forth in the agreements.

II. Shipment and Reception of Equipment:

In April 2020, the Federation was notified that the support had been granted and in June/July 2020 the 10 sets of SIUS Electronic Target Systems were shipped and arrived in San Pedro Sula, Honduras. The Federation took all the necessary steps and actions to complete the legal importation and payment of corresponding taxes. It is important to mention that the ISSF collaborated with the Federation to complete the additional paperwork requested by the Honduran customs authorities, also, it is important to point out that the Honduran Olympic Committee (COH) as well as the American Shooting Confederation (CAT) provided financial assistance to the Federation to cover payment of importation taxes for the equipment. In September 2020, the federation notified the ISSF that it had successfully completed the importation process for the 10 Sius Electronic Target Systems.

In May 2021, the 5 Air Rifles (Walther Match LG400) and 5 Air Pistols (Walther AP200), were shipped and arrived in San Pedro Sula, and in the same way the Federation took the necessary actions for proper importation. In May 2021 the Federation notified the ISSF that it had successfully completed the importation process for the 5 Air Rifles (Walther Match LG400) and 5 Air Pistols (Walther AP200).

III. Installation and use of Equipment:

The equipment included in the support granted to the Federation is still pending to be installed at the federation shooting range, as stipulated in the project proposal, due to the following:
I. Background:

In 2019, the Honduran Shooting Sport Federation (Federación Nacional de Tiro de Honduras), has applied for a grant of support from the ISSF Development Fund Programme, in response, in 2020 the ISSF Development Fund Programme, according to its rules, has granted support to the Honduran Shooting Sport Federation, for which the corresponding agreements were formalized.

The granted support consists of the following:
- 10 sets of SIUS Electronic Target Systems 10-meter lane HS10 Complete
- 5 Air Rifles (Walther Match LG400)
- 5 Air Pistols (Walther AP200)

This Report is presented by the Honduran Shooting Sport Federation in compliance with the rules and conditions set forth in the agreements.

II. Shipment and Reception of Equipment:

In April 2020, the Federation was notified that the support had been granted and in June/July 2020 the 10 sets of SIUS Electronic Target Systems were shipped and arrived in San Pedro Sula, Honduras. The Federation took all the necessary steps and actions to complete the legal importation and payment of corresponding taxes. It is important to mention that the ISSF collaborated with the Federation to complete the additional paperwork requested by the Honduran customs authorities, also, it is important to point out that the Honduran Olympic Committee (COH) as well as the American Shooting Confederation (CAT) provided financial assistance to the Federation to cover payment of importation taxes for the equipment. In September 2020, the federation notified the ISSF that it had successfully completed the importation process for the 10 Sius Electronic Target Systems.

In May 2021, the 5 Air Rifles (Walther Match LG400) and 5 Air Pistols (Walther AP200), were shipped and arrived in San Pedro Sula, and in the same way the Federation took the necessary actions for proper importation. In May 2021 the Federation notified the ISSF that it had successfully completed the importation process for the 5 Air Rifles (Walther Match LG400) and 5 Air Pistols (Walther AP200).

III. Installation and use of Equipment:

The equipment included in the support granted to the Federation is still pending to be installed at the federation shooting range, as stipulated in the project proposal, due to the following:
The sport shooting range in use and managed by the Federation is located in, and is part of the Metropolitan Sports Complex of the City of San Pedro Sula, Honduras. The range includes an indoor facility for 10-meter air pistol and air rifle, as well as, outdoor areas for 25 and 50 meter smallbore pistol and rifle. It is important to mention that, in addition to the shooting range, the complex includes a football stadium, baseball field, gymnasium, swimming pools as well as other facilities.

In compliance with the measures adopted by the Honduran Government in response to the COVID-19 Pandemic, in which all sports facilities were ordered to be closed, the City of San Pedro Sula had to temporarily close access to the Metropolitan Sports Complex, these measures have been in place since the first semester of 2020 and are still in effect to this date.

The Federation has maintained close communication with the proper city officials and has expressed the need to have access to the range facilities for training purposes, as well as, installation of the equipment for completion of the Project. Unfortunately, under these temporary conditions, the Federation has only had very limited access to the range and to this date has not been able complete the project. Based on the latest communications with city officials, the Federation expects to have access to the range facilities in January of 2022 and at that time proceed with the activities necessary to complete the project.

**IV. Reporting:**

The Federation, in compliance with the conditions of the Agreement, will provide the ISSF Development Fund any required additional update reports, including the Final Report upon completion of the Project.

On behalf of:

**Federación Nacional de Tiro de Honduras**
(Honduran Shooting Sport Federation)

Final Remarks ................................................................................................................................... 10
**Background**

In September 2020, Target Shooting Ireland were awarded 10 SIUS HS10 Electronic Targets from the ISSF Development fund. The ISSF sponsored the target costs with Target Shooting Ireland only being responsible the costs of VAT and Customs on entry to Ireland.

Prior to the application to the ISSF Development fund, an agreement was made between Target Shooting Ireland and Wilkinstown Target Shooting Club (WTSC) that if successful, the equipment would be installed in the WTSC range. WTSC has been a long-time affiliate of Target Shooting Ireland and heavily involved in the development of the sport. The club has hosted the most successful youth development pathways for 10m Airgun Shooting, was the training location for the high-performance squads prior to international travel, has a number of ISSF qualified coaches involved and had recently expanded their facility. The facility for many years was a 6 lane 10m airgun range. The downstairs of the facility was converted into an additional 9 lane 10m airgun range with room for a range office, equipment storage, changing rooms, dry firing areas and room for more spectators.

Target Shooting Ireland does not receive any state funding and our budget is very limited. The federation was not in a position to cover the cost of the VAT for the targets initially. A membership offer was made to long term involved persons of the sport including a lifetime affiliation to Target Shooting Ireland and a two-year membership to WTSC to cover the costs, with any excess funds received going into a fund directly into upgrading the WTSC for use of the targets. The costs were covered within an hour of the offer being made with additional money available now for upgrades. The offer was equally beneficial for covering the costs of the targets, and increasing the membership numbers within WTSC.

**Stage 1. Installation of the Targets & renovation of the range facility**

The installation of the targets was heavily delayed resulting from the COVID-19 pandemic. When the targets arrived, Ireland going through strict periods of lockdown with travel restrictions in place. Individuals breaking the restrictions were at risk of heavy fines and all sporting activity in the country was halted. During this period, the committee of Target Shooting Ireland drew up plans for the renovation of the WTSC range and target installation when timings would allow. Similar venues from abroad were used as examples, and the intention was to convert the range into a national training centre of excellence, with regular domestic matches being held along with high performance training camps and youth development pathway programmes. TSI and WTSC reached out to the local sports partnership in Meath, where WTSC is based, and applied for a development grant to further improve
the range as the set of targets were now going to be available. The grant was approved and the budget for range renovation increased substantially.

The range facility is connected to the home of the range owner, who also owns a pub based adjacent to the range. During the pandemic lockdown, pubs were also closed for an extended period of time and the pub was repurposed with a lot of the furniture and other items temporarily being stored in the range. Without the regular footfall of shooters and spectators, the range became run down and unsuitable for use without an extensive clean up programme.

*Before*

On reopening of the country following the third wave of the COVID Pandemic, Indoor Sport remained closed but travel restrictions were limited. At this point in time, the TSI committee and volunteers from other Irish clubs travelled frequently to WTSC to fix up the range and prepare it for installation of the targets. An extensive plan of repainting and insulating the range, along with panelling areas to improve aesthetics and thermal regulation was put in place. TSI applied for discounts through various companies to reduce consumable costs, and all labour aside from one roof repair was done by volunteers in the sport.

Plans were drawn up to produce bespoke firing point tables similar to those in international standard ranges but quotations for these to be build by local carpenters came in too high. TSI re-drew the plans, sourced materials and members of the sport built the tables, reducing the cost per unit from €400 each to €72 while retaining the functionality, quality and design.
Following the extensive clean up, painting and panelling of the main range area, Liam Crawford, President of TSI and ISSF/WSPS qualified judge measured the correct height and distances for the targets to be placed within the ISSF regulations and the target holdings were all put in place. The targets were put in place and cabling set up to connect to all monitors and power outlets.
The short window of time from when Ireland reopened indoor sport (October 2021) and now when Ireland has entered a fourth, troubling wave of COVID with cases higher than any previous point in time has left us in a position where we have not yet scheduled the grand opening of the facility and regular competitions. Training in the range has been limited but in the meantime, we have released word and photos of the installation of the new targets and generated significant interest in the range from already involved members, and extended groups interested in now getting involved. The improvement of the range has been significant.
Stage 2. Ongoing Development Programs to increase participation

We reached out to the Meath Local Sports Partnership to enquire about repeat funding opportunities for the range given the impact the initial grant provided for us. The Meath LSP were extremely receptive and impressed with the equipment now available in the range. Two projects are in the works between ourselves and the Meath LSP to boost participation in the sport both in youth development and for the wider community.

*Schools Tryout Sessions:*

We have applied for funding to cover the costs of a 7-week schools programme targeting schools in the nearby area of the range. The purpose of this programme would be to open up the facility for taster sessions for all interested from a selection of schools for the first 6 weeks, with a different group of schools targeted at each week. This allows for individuals of younger ages to try out the sport which is often of limited opportunity to them outside of this. Coaches and instructors are available for each day and documentation providing more information about the sport and a youth pathway programme are provided to participants each day. At the end of each day. Connections with the schools will be made an efforts to introduce the sport as part of the PE curriculum will be made, given the sport is so widely inclusive and may be encouraging for those at risk of low physical activity to get involved where other contact sports may not be appealing.

The final week of the 7-week programme will be hosted as a combined event from all those who participated in the previous 6 weeks. An informal competition will be hosted, introducing all participants to the format of ISSF Olympic Shooting and giving them an opportunity to engage on a competitive basis. Prizes will be awarded which often encourage newcomers to return, and this will be another outreach opportunity to ensure an increase of participation numbers on a formal, more regular basis, particularly from those at a young age which we are lacking in numbers at present.

*‘Give it a try’ sessions:*

The Meath LSP host regular ‘give it a try’ sessions aimed at increasing participation in a range of different sports. They advertise the sessions to all those on their contact lists and their far reaching social media channels. The LSP is interested in working out arrangements with TSI and WTSC to include the WTSC range and Olympic Shooting as part of these programmes, and will encourage individuals across the county to try out the sport on a free-to-try basis. Similar to the schools tryout session, this gives an opportunity to open the range to individuals who may otherwise not be aware of the sport, or not have previously had an opportunity to get involved. All participants will leave with documentation and contact details to continue their involvement, and on the day all coaches
and instructors will be available to ensure everyone gets to try out the sport and learn more about Olympic Shooting. As part of the agreement between the Meath LSP and WTSC for the ‘give it a try’ sessions, the Meath LSP will pay hiring costs for the facility and use of the equipment which will increased development funds and further improve the facility as a national training centre of excellence.

Stage 3. Official opening and competition calendar

While we are in precarious position in Ireland with the current COVID situation, the plans to host a grand opening are in progress and the Irish shooting community are excited to attend. The official opening will include a casual competition for individuals to try out the equipment and encourage people to get involved regularly. Those who donated to the target fund to cover the VAT costs will have their two year membership commence, and promotion of youth programmes will begin with weekly open training sessions hosted with coaches available to help participants of all experience levels.

Furthermore, at the official opening the competition calendar for the year will be released and will involve hosting of a 10m Airgun competition on a monthly basis in the WTSC range, using the 10m SIUS targets. Competitions in Ireland are open to all members of the range or federation and typically involve individuals of all abilities and experience. We have a growing number of interested members at college age who have been delayed in trying out the sport while indoor sport was restricted, and we expect there to be regular, growing numbers who compete on a monthly basis. Where numbers interested exceed spaces available, additional details will be added or an extra day of competition hosted to ensure that anyone who wants to participate can have the opportunity.

Stage 4. Future development plans

To further develop the national training facility, longer term plans have been put in place to reconstruct parts of the range. Funding is being sourced to build a ceiling above the stats office to open up an upstairs area for excess equipment storage. This will free up the equipment storage room which is connected to the range office. The wall connecting the office and equipment storage is not load bearing and will be removed to open up the office to a wider area, and create additional common room areas for spectators and athletes.
Final Remarks

The receipt of the 10 SIUS 10m Electronic Targets have been a massive boost for the development of Olympic Rifle and Pistol in Ireland. As an unfunded federation, we struggle to make great strides with development and keeping up with the rapid improvement of technology in the country. We have access to electronic targets but these are owned by clubs or members, rather than the federation. We have reached out to contacts in SIUS who are also willing to travel to Ireland when possible to provide us with a workshop on the correct use of the targets, which we will involve as many administrators and volunteers as possible so the knowledge around correct use of the targets is more widespread in Ireland.

It is not just the physical targets themselves that have made a difference, but the success in receiving this grant has encouraged other bodies in Ireland to support the sport and invest in us. The outreach potential from having a set of Olympic standard targets in a national facility is encouraging more numbers to participate that we have been able to manage before, and we now have a host of new opportunities to get involved in such as development programmes, taster sessions, training camps, high performance training days and regular competition level at the standard we would want for domestic competitions. We have been using this success to build up the facility to meet better standards than we would have before, and have managed to renovate the range at an extremely low cost through the dedication of our members, administrators, athletes, coaches and volunteers who are so enthusiastic to see the new equipment in action.

We are in a difficult position with the COVID pandemic as mentioned, but we have made great strides in getting the installation complete around the restrictions without compromising the integrity of the sport. We believe the participation numbers of the sport in Ireland will be greatly enhanced when restrictions are reduced once more and we can officially launch the renovated range.
The Kazakhstan Sports Shooting Federation has implemented a project for the development of youth airgun shooting sports. In the city of Shymkent, on the territory of the shooting club "SHOOTING PLAZA", a shooting academy has been opened, in which academic classes for athletes of young age are organized. The Kazakhstan Federation has developed methodological manuals and identified qualified coaches for organizing and conducting classes.

In 2021, the International Shooting Sports Federation (ISSF) allocated assistance to the Kazakhstan Federation in providing 10 electronic targets for 10 meters by SIUS ASCOR, which are installed in the final hall of the shooting club "SHOOTING PLAZA" for training.

The result of this project was the successful performance of the Kazakhstan national team at the 14th Asian Airgun Championship: 14 gold, 14 silver, 14 bronze medal, where 8 gold, 8 silver, and 8 bronze medals were won by junior and youth athletes.

Subject: Report

All electronic scoring targets are installed on KSHSF indoor shooting range in Prishtina, (based on development fund questionnaire and the support agreement).

Since the time of electronic scoring target has been install until now the KSHSF has managed to realize 11 local competitions, at the same time the shooting range is the only place where 5 local clubs from Prishtina can do they’re activities. Despite the pandemic situation the interest in shooting sports and participation on local competitions has been highly desirable.

Attached below you can find the KSHSF Face Book link, including all activities on the shooting range.

ISSF Development fund report

In the name of Latvian Shooting federation (LSF) I express its gratitude for the support given to Latvian shooting sport athletes in year 2020. The SIUS scoring systems (10 sets of SIUS Electronic Scoring Targets SA951 with HS10 target for 10m), 10 Air pistols (Hammerli AP20 4.5mm) and 10 Air rifles (LG400 Blacktec) will serve to develop the 10m disciplines and engage young athletes into the shooting sport in all regions of Latvia.

The LSF is a non-profit organization and ISSF Development fund support helps to raise amount of young athletes in Latvian regions where shooting sport was not so popular yet. As a result, the number of competitors in Latvia has increased.

ISSF Development fund support helped to our athlete Agate Rasmane even better prepare for this year’s main competition - Tokyo 2020 Olympic games. The SIUS scoring system is allocated in Dobele town where Agate’s training range is and where she is working as a coach for young athletes. Agate’s sportsmen ship attitude and Olympic success has inspired young athletes all over the country and also in the Baltic region.

Air pistols and Air rifles are divided between sport schools and shooting sport clubs in 8 regions in whole Latvia - Tukums, Daugavpils, Vīlaka, Dobele, Valka, Aizpute, Ventspils and Riga. First medals in national Youth Championship this year has already won by athletes who competed with new guns. Young athletes are very happy to train and compete in higher quality as before.

Both projects have been successfully implemented and the goals have been achieved. We highly appreciate for your support and cooperation!

Best regards,

LSF Secretary General
Ieva Simsone
REPORT ON THE SUPPORT AGREEMENT FOR 10 SETS OF SIUS ELECTRONIC SCORING TARGETS: SA951 WITH HS10 TARGET FOR 10M

We are grateful for the support which was given to the development of shooting sports in Lithuania. Due to the long delay of the custom procedure’s, the ISSF DF support consisted of 10 m. SIUS targets finally reached the Lithuanian Shooting Sports Union and Vilnius shooting range on the 25th of November 2021. Coordinating customs and other taxes took a long time. It is good to announce that everything has been agreed and no additional charges have been applied.

10 sets of SIUS electronic scoring targets systems will be placed in Vilnius city shooting range instead of the old paper-targets equipment. This shooting range is hybrid and transforms into 25, 50 and 10 m. shooting range with 12 shooting windows. Also, in this shooting range works two coaches and their assistances. Attendance of this range is from twenty to thirty athletes who come to training every day. After installing the new target system, we will be able to organise Lithuanian junior championships, Vilniaus city championships, also training camps for all ages of national shooting teams. To make the competition more comfortable for the athletes, coaches and spectators, we plan to buy and install monitors.

Further electronic scoring target system installation works will be sent to in near future.

Arrival of SIUS target system.
Vilnius shooting range 10 m. with the old paper target equipment.
To: The Board of Trustees of the Development Fund ISSF

From: Macedonian Sport Shooting Federation

Subject: Report on donated equipment

0302-634, 30.11.2021 Skopje

In 14.04.2021 the Macedonian Sport Shooting Federation (MSSF) wrote an e-mail to the ISSF (mail) informing about the new changes in the Federation as well as the new goals for the future in which MSSF requested for support in the form of sporting equipment for the athletes that would allow for raising the standard and performance for the clubs in R. North Macedonia.

The MSSF request was forwarded to the ISSF development fund, and a confirmed donation was made, consisting of the following:

- Electronic Scoring Targets System with ten (10) units, of the brand SIUS; HS 10 and SA951
- 10 Air Rifles of the brand Carl Walther; Blacktec
- 10 Air Pistols of the brand Hammerli; AP 20

The donation was received in two parts, in which the Air rifles and Air pistols on 23.05.2021 and the electronic targets arrived on 10.06.2021.

Due to the Covid 19 pandemic limitations, the 10 electronic targets were installed on the Sporting air pistol and rifle range in the club REK Bitola where the range has been renovated and able to accept the targets on its upper floor dedicated for them. And the air rifles and pistols were distributed to the Sport shooting clubs in numbers relating to the active athletes present in each club. On the electronic targets, the national team members made several preparations because the city of Bitola is a tourist city and there is a ski center Pelister away from Skopje 160 km.

The first national cup on the electronic targets was held on 27.11.2021.

The donated equipment has piqued the interest of many of the already active athletes and has brought the attention of many new. It has raised the standard to a new level and the results of the athletes are constantly improving.
The new donation was published on the MSSF official website below:

http://mssf.org.mk/2021/05/30/%d1%81%d0%be-%d0%b4%d0%be%d0%bd%d0%b0%d1%86%d0%b8%d1%98%d0%b0-%d0%bd%d0%b0-%d0%b2%d1%80%d0%b5%d0%bd%d0%b0-%d0%be%d0%bf%d1%80%d0%b5%d0%bc%d0%b0-%d0%be%d0%b4-%d0%bc%d0%b5%d1%93%d1%83%d0%bd%d0%b0/

Below are attached the photos of the shooting range in City Bitola where the electronic targets were installed.
Many thanks are expressed by the leadership of the MSSF and with this great help for the Macedonian sport shooting we can compete side by side with the other shooters for greater success in international competitions, in order to justify your trust in us.

Best regards,

Jordan Tasevski

President of Macedonian Sport Shooting Federation
REPORT OF THE MAURITANIAN FEDERATION OF SHOOTING ON THE ISSF DONATION

Under two donation agreements signed between the Mauritanian Shooting Federation and the ISSF on August 17, 2020, the federation received respectively in September 2020 (sius targeting) and in April 2021 (Weapons), by air, the following equipment:

1- A SIUS target system of five electronic targets for compressed air shooting:
Sets of SIUS Electronic Scoring Targets: SA951 with HS10 target for 10m

2- Compressed air guns:
a. Rifle model LG400 BLACKTEC (5 pcs.);
b. Pistol model HÄMMERLI AP20 4,5MM (5 pcs.).

One of the rifles allowed our athlete Levdhil to participate in the shooting competition held in Cairo in June 2021 (Results in appendix).

This equipment will be installed in a 20m room rented by the Mauritanian National Olympic and Sports Committee whose contract will be signed with the Olympic stadium in Nouakchott before the end of the year.

The arrangements for installing its equipment will be finalized in January 2022, while its equipment is stored at the office of the Mauritanian shooting federation at the Nouakchott Olympic Stadium (Photo attached).

Dear Mr. Yahor Aleinik,

Shooting Federation of the Republic of Moldova, according page 2. - paragraph II. Obligations of Supported Federation 2.3. "to present a final report to the ISSF upon completion of the project as determined by the ISSF";

Hereby - confirming that all the equipment is received, installed distributed to shooters, clubs, members and used according destinations and approval of Development Fund and Support Agreement.

- 10 Sets of SIUS Electronic Scoring Targets: SA951 with HS10 target for 10m;
- Rifle model LG400 BLACKTEC (5 pcs.);
- Pistol model HÄMMERLI AP20 4.5MM (5 pcs.).

Taking into consideration that during year 2021-2021 the Shooting Federation are facing some difficulties in registering weapons and organising training process, imposed by the authorities, however we are in the stage when we clarify these issues - partly the weapons are already distributed and offered for use for athletes and clubs.

Thank you!

Yours Truly,

Arcadie BOSTAN

President
Shooting Federation of the Republic of Moldova
To the kind attention of
Mr Yahor Aleinik
Event and Development Fund Manager
International Shooting Sport Federation

FINAL REPORT - ISSF Development Fund donation

First of all, I would like to emphasize how much the support we received from the ISSF Development Fund meant to us in Montenegro Shooting Sport Federation. In fact, the mere knowledge that there is a global fund enabling support to the struggling shooting organizations was encouraging. To be a part of this project which is based on the idea and patronage of Mr. Vladimir Lisin is an honor and an obligation.

We have literally never received a similar donation, from our country and from abroad. The electronic targets (10 of them) that were donated to us through the ISSF support program last year, are the first equipment of this kind that we have in our organization. Prior to that, the targets were owned privately and were few and far between. This, in itself tells what position we were in before getting electronic targets, how our national team members and athletes were in inferior spot and in disadvantage regarding their peers from other shooting sport nations.

Our idea was to create two mini shooting centers and to make a foundation for a different level of teaching and training process. The targets were divided in two strategically important places to our shooters, Podgorica and Berane, where most of the talented and high-
competitive athletes reside and train. In the meantime, other targets were bought (by individuals) so now we have more better equipped training zones than ever. Considering the ‘novelty’ of the equipment we got, the first effects of the donation were introductory and basic. Athletes faced changes in all aspects of the “fireline time”. Their attitude and routine were first to change. It made learning more flexible and accessible, it motivated our coaches to get involved on another level, gave new tools that made additional training and competition approach. Also, our athletes are becoming more involved, our coaches are trying to mix learning options and preferences and give more diversified training options....

As expected, the results are not yet and cannot be at the desired level, but the number of the international-level athletes is higher than ever. Also, we noticed better performance response and competitive toughness in younger and female athletes.

Of course, improvement in one place makes obvious shortcomings in other places, so the constant need for infrastructural changes and improvements comes obvious and imperative to us.

We need more targets, new equipment, new accessories for all disciplines, if we want to be present and competitive at all. Therefore - our efforts to move forward and engage more support have to be proactive and goal focused.

The ISSF development fund donation helped us improve our activities, but also showed where we need to be more active and what our next steps are. We got a big incentive to work better and think in a broader framework. The goal to create a suitable ground for the development of our athletes and be in position and knowledge to organize international competitions is nearer.

We still have a lot of work to do, especially in terms of raising the results and shooters performance strength, but thanks to the support of the Mr. Lisin and ISSF Development Fund, we now have more opportunities and skills to achieve this.

We remain at your disposal for any additional information.

Best Regards,

Shooting sport Federation of Montenegro,
President, Mr Zoran Bošković

[Signature]
The NZ Shooting Federation Board in conjunction with Pistol NZ and Target Shooting NZ has completed the installation and trials with the set of 10m electronic targets, donated from the ISSF Development Fund.

The initial set up was completed by Target Shooting NZ members and after a few days of teething issues and training days, they conducted a successful event at the Manawatu Air Rifle Club on 30th January 2021. Attending the event was David Rew (NZ EST Judge) and below is an extract from his report.

On Saturday 30th January, I attended the Manawatu Air Rifle Open Championships, the first Designated Match to be held on the NZSF’s Sius Ascor 10m electronic targets.

Manawatu Smallbore Rifle Association personnel, (Jackie Lindsay and Bruce Marchant), had spent a considerable amount of time in setting up the range on their 25-yard smallbore range. Fortunately, that range is sufficiently wide to accommodate all 10 targets provided by the ISSF. While user manuals were supplied with the equipment, it was found that they generally did not meet the needs of people totally inexperienced with the setting up and operation of the Sius targets, but Jackie was able receive good support from Sius in Switzerland. There is obviously going to be a long learning curve in becoming fully familiar with how the system operates and what functionality is available. Having said that, the championships went off well and the three relays of qualification matches and two finals, were competently run, albeit with a few workarounds where time precluded getting an understanding of what functionality was available. The issues that arose can be followed up with Sius. Jackie Lindsay has prepared a manual for local use, extracting the key information from the various Sius sources of information.
Following on from this event, the equipment was packed up in six 100-liter plastic containers and freighted to Whangarei (700km trip) reassembled and used for training that led into the Pistol NZ 2021 National Championships conducted on 13th and 15th March 2021. Again, this was a successful event which created invaluable interest as most entries had never experienced electronic targets.
Both Pistol NZ and Target Shooting NZ are extremely pleased with addition of Electronic targets and have asked us to pass on their gratitude and thanks for generous donation from the ISSF Development Fund.

Using the equipment as a shared/mobile target system seems to work well and both organizations are working together to cement an annual share program over the next two years.

New Zealand Shooting Federation can already see the now and future benefits of having electronic targets with comments from Pistol, Rifle and athletes regarding the speed events can be conducted, clarity of scores and the enthusiasm/excitement that has been created, which is already resulting in more people wanting to try the sport.

New Zealand Shooting Federation Board would like to thank Mr. Ratner and the ISSF Development Fund for the generous sponsorship and we will keep ISSF updated with future progress.

Thank you and regards

Ewen Pirie

3.- ¿Cómo se está utilizando (entrenamientos, competencias, actividades escolares)?

Actualmente se están utilizando únicamente para los entrenamientos de los miembros de la Selección Nacional de Tiro de Nicaragua y para las competencias tanto nacionales como a nivel internacional.

Agradeciendo su atención y su apoyo, me despido.

Atentamente,

Jaime Dávila M.
Presidente
FENATIRO
Sr. YAHOR ALEINI
Event and Development Fund Manager
International Shooting Sport Federation

Estimado Señor Aleinik:

Mediante la presente le enviamos el Reporte Final sobre la donación recibida a través del Fondo para el Desarrollo del Tiro Deportivo, el cual consistió en 5 fusiles de Aire Comprimido marca Walther LG400 y 5 pistolas de aire comprimido marca Hammerli AP20.

1.- ¿En donde está siendo utilizado el equipo recibido?

El equipo deportivo fue recibido en nuestras instalaciones el pasado 22 de julio del 2021 y se están utilizando desde ese mismo día en la siguiente dirección: Kilometro 20.5 carretera a Masaya en las instalaciones de la Federación Nacional de Tiro Deportivo de Nicaragua (FENATIRO).

2.-¿Quiénes lo están utilizando?

La donación la está utilizando solo los miembros de la Selección Nacional de Tiro, tanto de Rifle como de Pistola:

- **Selección Nacional de Rifle:**
  1) Mariel Jose Lopez Pavon (ISSF ID: SHNCAW2109200201).
  2) Maria Auxiliadora Lopez Pavon (ISSF ID: SHNCAW11072000013)
  3) Yanna Lourdes Guillen Taylor (ISSF ID Pendiente)
  4) Rafael Horacio Hernandez Solorzano (ISSF ID: SHNCAM3010199901)
  5) Yerald de Jesus Canda Sanchez (ISSF ID: SHNCAM1704199801)

- **Selección Nacional de Pistola:**
  1) Karen Lisseth Lacayo Paladino (ISSF ID Pendiente)
  2) Mayssa Lopez Pavon (ISSF ID Pendiente)

Las 3 pistolas de aire restantes están resguardadas en inventario de bodega para ser asignadas.
Mr. Alexander Ratner  
General Secretary  
ISSF

Panamá, November 30th 2021

Dear Alexander:

We appreciated the support received by ISSF development fund with the project to develop the Shooting sport at Panama.

We confirm the reception of the implements:

- 1- 5 Air pistol for beginners (Hammerli)
- 2- 5 Air rifle for beginners (Walther)
- 3- 5 Sius electronic Targets

We execute the project with the installation of the Sius electronic targets, and recruit new young athletes using the new implements to training and local monthly competitions, having the next results:

- We participate in the Pan American Qualifying event at El Salvador, getting 2 quotes in air pistol 10 mts (1 male – 1 female)
- We did 8 local controls competition to prepare the athletes for the competitions, including the Panama National Championship and continue the event until December 12th 2021
- We participate in the Grand Prix Air Rifle/Pistol El Salvador in October achieving 3 medals:  
  - Bronze medal: Juan Campos air pistol individual 10 mts  
  - Silver medal: Juan Campos/Stephanie Martínez (Mixto evento, air pistol 10 mts  
  - Silver medal: Juan Campos/Wilfredo Cruz/Aristides Guevara (Team event -air pistol 10 mts) 
- We participate in the I Pan American Juniors Games, Cali 2021  
  - Stephanie Martinez: 14th place, air pistol 10 mts  
  - Luis Preciado: 15th place, air pistol 10 mts  
  - Stephanie Martinez/Luis Preciado: 10th place. Mix event air pistol 10 mts

I attach some pictures of the new implements,

Thanks a lot for your support, we are on the right track, and we know that will get good results in short time developing the shooting at Panama with new youngest athletes.

Sincerely,

_____________  
Efraín Tejada  
General Secretary of Panama Shooting Federation

Cc. Tomas Herrera (President of Panama Shooting Federation)
FEDERACION PANAMEÑA DE TIRO
Mr.
Yahor Aleinik
Event and Development Fund Manager
International Shooting Sport Federation

Dear Mr. Yahor,

This letter pretends to accomplish to our agreement with the supported federations page 2. 1. Obligations of Supported Federation 2.3. "to present a final report to the ISSF upon completion of the project as determined by the ISSF".

Regarding the equipment send, a Skeet Laporte machines and 10 Sius electronic target to 10-meter pistol and rifle were received last year and installed in the Federation Range that we have in the Paraguayan Olympic Park in Luque - City near from the capital of our country.

We’re used the equipment for competition and for training, specially the electronic target was useful for the Federation Shooting School and for training of the Official Shooting Team of Paraguay.

The following pictures shows the building and we capture some picture during a training:
Behind the Precisions ranges we have the Skeet and Trap Range, the skeet range are equipped with the Laporte Machines and like 10 meters Sius equipment, we are use this range for the practice, and training of the National Skeet Team

Best Regards

Osvaldo Bergues Battilana
Presidente Federación Paraguaya de Tiro
Dear Sir,

The Tunisian Shooting Federation has recently received 10 electronic target systems for its newly built shooting facility in the south suburb of Tunis. They add to the other 10 target systems which the ISSF had already offered to our federation.

Since we had no SIUS specialist to install the target systems, we relied on our local experts to do it despite the fact that they have never manipulated such equipment before. We relied on the documentation made available by SIUS, which helped us a lot, especially when it comes to controlling the systems and managing results. We did succeed in getting all the 20 targets installed and ready to shoot.

The targets have been installed in the newly inaugurated shooting facility in the governorate of NABEUL (30mn driving from Tunis city). We have installed 30 target systems including 20 electronic ones. The target population will be mainly the Tunisian national shooting team who will train and prepare for any international competition or meeting there. We have also planned to host all local championship competitions in the same place. Moreover, we are planning to launch a training academy for all young people interested in shooting. They will use the 10 classical target systems that are installed next to the electronic ones.

We are planning to establish another shooting facility in the south of Tunisia as the number of athletes is growing.

Dear Sir, we highly value ISSF’s support and we are really confident that this will improve our athletes’ results and enhance their ability to compete with high-level athletes internationally.

On behalf of the whole Tunisian shooting family, please accept the expression of our gratitude and sincerest thanks.

PS: Please follow this link to watch the video of the inauguration of the shooting facility: https://we.tl/t-Gz8rQqJ1Ya

Secretary General
MAAFAOUI Nejib
Montevideo, December 2, 2021

Dear Mr. Yahor Aleinik,

Attentive to the request and in compliance with the agreement signed, in relation to support with shooting equipment, I bring to your knowledge the current situation: SKEET MACHINES: they are installed in the shotgun shooting club, they are used by federation athletes in competitions and training. Its performance is excellent. ELECTRONIC TARGETS: they were intended to be installed at the army firing range, due to a change in the authority's criteria of the Army and the restrictions imposed by the health situation, at the moment it has not been possible to install them, being deposited in custody and safely. We are working to expand the existing facilities and / or build a new air shooting range. Support has been very important to us and we plan to have the team up and running as soon as possible.

We reiterate our appreciation for the support received, greetings to you sincerely
